

## Daymar Disclosures - Information Page

Final regulations published in the Federal Register by the U.S. Department of Education require institutions that participate in the student financial assistance programs authorized under Title IV of the Higher Education Act to report certain information about students who enrolled in Title IV eligible programs that lead to gainful employment in a recognized occupation. In compliance with federal regulations Daymar is providing the following gainful employment information for its program offerings in the following pages: on-time completion rate, graduation rate, employment rate, tuition and fees, median loan debt incurred by students; and O\*Net occupational profiles. There may be several pages. Please make sure to review the entire document for all disclosure information.

OPEID: In the following pages you will find information grouped by campus location(s) that share the same OPEID number. An OPEID number is the identification number issued by the U.S. Department of Education's Office of Postsecondary Education to identify schools that have a Program Participation Agreement so that its students are eligible to participate in Federal Student Financial Assistance programs under Title IV regulations.

CIP: The Classification of Instructional Programs (CIP) is a coding scheme for postsecondary instructional programs of study that facilitates the organization, collection, and reporting of program data. In the following pages you will find information also arranged by CIP code for the multiple campus locations contained in the listed OPEID group.

O\*NET: The Occupational Information Network provides occupational information for the Nation that describes basic job requirements, worker attributes and work content. The CIP Code link to the corresponding O\*NET information has been included as required, as a reference point. Because multiple programs can be classified under one CIP code and linked to occupations as classified on the O\*NET site it is not accurate to assume that the specific program prepares students for all listed occupations and typically should not be relied upon as a representation or promise of future employment.

NOTICE: The data provided is historical data about the students who have graduated and/or obtained employment in their field or a related field after completing the program. Because of the classification and combination of data as categorized by an OPEID and CIP code the data does not necessarily reflect specific program and credential information for a specific campus and should not be relied on as a representation or promise of future outcomes or employability. Employment is determined by multiple factors outside the control of the school. Daymar does not guarantee completion, employment or salary for any of its programs. The calculation of median debt may include debt incurred by students who pursued multiple programs and may not be limited to the program listed. Therefore, the debt amount listed may exceed the specific program's debt and costs. Programs with fewer than 10 students will not list completion or debt.

ON-TIME COMPLETION RATE: This rate reflects the percent of graduate completing their program within 100% of the normal time frame (for the program enrolled in) as defined by the U.S. Department of Education.

PLACEMENT RATES: The placement rates provided in the following pages have been calculated by school, by program, as indicated for the Accrediting Council for Independent Colleges and Schools - Campus Accountability Report and the Tennessee schools forms also include rates derived from the calculation method as provided by the Tennessee Higher Education Commission (THEC). Rates and dates may differ based on regulatory body requirements. The school does not guarantee graduation, employment or salary. The calculation methodology is included below.

## Accrediting Council for Independent Colleges and Schools (ACICS)

ACICS is a national accrediting agency recognized by the United States Department of Education. The reporting period here is July 1 – June 30. Reported employment was obtained by November 1.

Placement Rate Calculation:

$(PF+PR)/(G-U)$  where PF= Placed in Field – meaning the full-time, part-time or temporary position requires a direct use of the skills taught in the program, PR=Placed in Related Field – meaning the position requires an indirect use of the skills taught in the program, G=Graduates\* and Completers\*\*, U=Unavailable for Work – meaning graduates who are unavailable for employment because of pregnancy, death, or other health related situations, military service, continuing education, as well as students who are not eligible for employment in the US because of visa restrictions. Spouses and dependents of military personnel who have moved due to military transfer orders are included.

\* Graduates have achieved all of the following: 1) CGPA of 2.0 or higher, 2) successfully passed all course requirements, 3) attained required competencies or speed levels in all courses, 4) met all clinical, internship/externship requirements, 5) satisfied all other academic requirements for graduation, 6) satisfied all non-academic requirements for graduation such as payment of tuition and fees, return of books, etc., 7) received the appropriate credential, and 8) ceased enrollment in the program at the school.

\*\* A completer is a student who is no longer enrolled in the institution and who has either completed the time allowed or attempted the maximum allowable credits for the program but did not accomplish one of the following graduation requirements: 1) Achieve a CGPA of at least 2.0; 2) Attain the required competencies; 3) Satisfy non-academic requirements (e.g., outstanding financial obligations).

## State of Tennessee

The State of Tennessee requires that institutions disclose the Placement Rates and other information in a report to the Tennessee Higher Education Commission (THEC). Programs with less than ten (10) graduates are not reported. The reporting period is July 1 – June 30. The calculation is:

Number of employed graduates in-field

Divided by/

Number of “placeable” graduates (Total Graduates – “Special Circumstance Non-Placement” + Placed Withdrawals)

# DAYMAR

The occupations listed here are associated with the CIP code and Occupational Information Network (O\*NET) database. The specific program does not necessarily prepare students for all listed occupations. This information is not intended to be relied upon as a representation or promise of future employability but only for informational purposes. The school does not guarantee program completion, employment or salary. The median debt may include debt incurred by students who pursued multiple programs and is not necessarily limited to the program listed.
